SPOTLIGHT Healthcare: Physician ratings

Patient experiences are a vital aspect of public reporting in the outpatient sector

Public reporting can clearly help improve patient care. But what exactly does this mean in terms of the outpatient sector? What role do other patients' experiences play in the context of reporting on the quality of a physician's practice? How helpful are rating portals and how do they differ from one another? These and other questions were explored by the Weisse Liste in an analysis carried out with Prof. Martin Emmert, University of Erlangen-Nürnberg, for SPOTLIGHT Healthcare
