## **Beschreibung**

The study sets out to provide a better understanding of the emerging challenges in policy targeting the labour-market integration of refugees. What are the strategies and practices implemented in different EU Member States to facilitate access into employment? What do we know about their effectiveness? What are good practices and lessons learned in different countries?

The study is based on nine detailed country case studies of the following EU Member States: Austria, Denmark, France, Germany, Italy, Netherlands, Spain, Sweden and the United Kingdom. It has been produced by the Migration Policy Centre (MPC) at the European University Institute in Florence.
