The Sustainable Governance Indicators (SGI) 2011 make up the second and latest edition of this major study, and they build upon the work of the successful and widely acknowledged first edition, from 2009. The study examines 31 OECD countries and their performance during the period between May 2008 and April 2010, which witnessed the height of the global financial turmoil and

economic crisis. In addition to the 2011 findings, this volume also includes essays on the project's conceptual framework and methodology as well as summaries and strategic forecasts for each of the countries.
