

CHINESE STUDENTS STUDYING ABROAD

European countries may have lower or no tuition fees, yet Chinese students choose the United States and Australia as their preferred places to study. Still, Chinese students take the top spot among foreign students in many European countries. The vast majority return home after graduating.

TOTAL NUMBER OF FOREIGN STUDENTS FROM CHINA AND TUITION FEES (2015)

WHAT CHINESE STUDENTS CHOOSE TO STUDY

Number of Chinese students (per subject) in %
Chinese students mainly choose subjects in the STEM fields, meaning science, technology, engineering and mathematics.

**Science, technology, engineering, and mathematics
